Introduction

Policy transmittals are used for policy clarifications and policy changes that may occur. Transmittals are used for guidance on operations procedures, and as supplement to the child care regulations currently in place.

Department of Social Services was the lead agency for the Care for Kids programs and funding, and issued related transmittals. Pursuant to Executive Order Number 35 in June 2013, and Public Act 14-39 in June 2014, the Office of Early Childhood was authorized as a state agency and became the lead for this program and funding. Please note that the transmittals issued prior to July 1, 2013 were issued by Department of Social Services. As of July 1, 2014 all transmittals are issued by the Office of Early Childhood.
