**Testimony of Beth Bye, Commissioner
Office of Early Childhood
Before the Human Services Committee**

**H.B. 5306 – An Act Concerning Temporary State Services for Victims of Domestic Violence
March 5, 2020**

Good afternoon Senator Moore, Representative Abercrombie, Senator Logan, Representative Case and distinguished members of the Human Services Committee. Thank you for the opportunity to offer written testimony concerning H.B. 5306 – An Act Concerning Temporary State Services for Victims of Domestic Violence.

The Connecticut Office of Early Childhood advances a two-generation family-centered approach in our pursuit of optimal health, safety and learning outcomes for young children. Through our core programs, we support infant and toddler care, preschool, after-school care, child care and youth camp licensing, home visiting, and early intervention to address developmental delays. The Office of Early Childhood is working toward better coordinated, cost-effective services that support Connecticut's youngest children and families.

We fully appreciate the intent of H.B. 5306. Victims of domestic violence are living in an extremely vulnerable situation. Child care provides a parent peace of mind that their child is in a safe and stable place. Section 2 would require that any person who applies for C4K and has alleged that they are a victim of domestic violence, in accordance with 17b-112a, income standards for determining eligibility is waived for at least 90 days, at which point income would be determined. The bill also requires that the OEC prioritize victims of domestic violence in the intake and eligibility process.

There are many other populations who are on our mind as we set policy, including families with young children experiencing homelessness, teen parents, and children with developmental needs, disabilities or health care needs. As we work to build a more integrated, coherent and inclusive child care system, we will do what we can to increase access for these populations.

This bill has significant fiscal implications. As the necessary fiscal resources are not included in the Governor's budget proposal, the OEC cannot support the bill.

Thank you for your time and attention. The Office of Early Childhood is committed to work together – with legislators, the executive branch, providers, advocates and parents - to better serve our families with young children.
