News

Time is an unclear measure for children. Adults can feel frustrated with children when they have not done what they were asked to do (e.g. pick up toys, finish snack) even after being given a five-minute warning. Visual timers, such as sand timers, are excellent tools parents and teachers can use to help young children measure time and understand expectations. Check out this Backpack resource for lots of ideas.

Tools

This sample scripted story shows a child learning the steps to cleaning up toys. Check out how to write your own scripted story for clean up time:
